## Tonal (Beep-beep) Reversing Alarms

ECCO's most compact and popular line of reversing alarms, the 500 Series provides a cost effective warning solution with ECCO quality and reliability. A glass-filled nylon housing with epoxy-encapsulated electronics provide exceptional durability and protection against moisture, dust and vibration. Tonal models produce the familiar 'beep beep' sound.

## Multi-Frequency 'Shhh Shhh' Reversing Alarms

The Multi-Frequency reversing alarm provides a solution to potential noise pollution created by conventional reverse alarms in confined or densely populated work areas. It helps to maintain a safe warning signal for those in the danger zone of backing vehicles while minimising disturbance to work site neighbours.
